## **A Big Howdy and Heartfelt Thank You from the Pottery Studio!**

On behalf of the pottery studio, we want to tip our hats and send out a big, heartfelt thank you to everyone who helped make our 10-Year Anniversary Chili Cook-Off Fundraiser such a rootin'-tootin' success! We're always inspired by the creativity and generosity that make this community so special, and this event was a shining example of that pioneer spirit in action. A mighty big thank you to the talented cooks who rode into town with their best chili recipes, the hardworking volunteers who kept

things running smoother than a well-greased wagon wheel, and everyone who came out to taste, vote, and support the cause. It was a fine evening filled with good food, friendly competition, laughter, and the kind of neighborly spirit that makes our studio feel like home on the range. A special shout-out goes to our winning chuck-wagon chef, Kevin Lawhorn, whose "Granny's Simmer Down Now" Chili brought just the right blend of heat and smoke to lasso the top prize and steal the show! We'd also like to give a heartfelt tip of the cowboy hat to Jan Conover, whose leadership and dedication have helped guide the pottery studio through the years. She's given countless hours of her time and energy, especially as we celebrate our 10-year anniversary—helping shape this creative community from the very start. The evening also got a little extra kick when Connie Fleming and Eileen Krueger kicked up their heels and shared some dancing instruction and music, adding a lively spark to the festivities. Another big round of applause goes to Ralph Penna, who helped guide us every "sound" step of the way in organizing this event. His steady hand and encouragement helped make sure everything came together just right.

We were truly touched by the kind words and warm compliments from our neighbors here in CCE, and it meant a great deal to feel such strong community support. Because of your generosity and participation—and a very special monetary contribution—we were able to exceed our goal and raise over \$2,500 for the studio! These funds will help us purchase new kiln shelves, update equipment, and make improvements that will keep the wheels turning and the clay flying for many years to come. After all, this studio isn't just a place where we throw clay—it's where friendships are shaped, talents are fired, and community is built.

We're mighty grateful to everyone who participated, donated, volunteered, and helped spread the word. Thanks for helping make this chili cook-off one for the books. We look forward to seeing y'all back in the studio soon. With gratitude, The Pottery Studio Community

Pottery Studio

## **GEO, THE PAPILLON**

By Geo

Hello. My name is Geo the Papillon and it's my first winter in Florida. I just turned one and enjoy walking on the beautiful trail with turtles and big birds, napping in the sunshine and am happy there's no ice in my paws. Oh yeah, it's paradise here. My rescuers, Peter and Tracy McDermott, found me in lockup and fell in love right away. They enjoy life here with me. Please say "hi" if you see us. I like meeting new people and dogs. Especially dogs. It's okay if you don't speak papyap, I am fluent in human body language. My mom has a plan to train me for agility competition because I am a speed demon and very smart, and if I do say so myself, easy to train. I am born and bred in Nebraska so I have the good ole Midwestern attitude. Fun and fame, awaits me!

I fit into CCE perfectly because I like to go to bed promptly at 9:30. When my folks stay up later than that, sometimes, I will periodically come to vocally remind them it's time for sleep. If they don't follow, I get grumpy and wander

back to bed for a while alone. The first night of the trip down from Minnesota to Florida, was great fun when we stopped at a Comfort Inn for the night, and I slipped out of the room when Peter went to grab dinner. The hotel had three floors with stairwells at either end of football-field-long hallways. Once I discovered the stairwells, I led a high-speed game of hide and seek through all three floors. If my humans spied me on a floor, I'd run for the stairwell to evade capture. Desperate, Mom ran to ask the front desk clerk to cover one floor, only to discover that the man just had one leg and couldn't help with the round up. Instead, he monitored the security cameras and shouted out my location so they could corner me. Once I was surrounded on both stairwells, I knew I had won the race and came running to Mom with a look of wild glee in my eyes. It's hard to be angry with a dog so obviously pleased with himself, and besides, I outwitted and outplayed them, right? So, who's to blame? They have become much more careful now that they know who they are playing against. So, if you see me running loose, catch me if you can, because if I ever get the chance to run free again, I will. It was a great experience. I can't wait for agility training! Oh boy, oh boy!

## **Cinco de Mayo May 5th**

## Relaxing with Technology

Blair Post, HAS, BC-HIS, ACA

Board Certified Hearing Instrument Sciences  
American Conference of Audioprosthology

I'm going to share a story about "Joe".

Yes, his name has been changed to protect him. During his regular cleaning, he mentioned that he felt constantly on alert when his kids were in town. While out to dinner, he had to look at who was speaking to make sure he heard clearly. When at home, he was always listening for someone to speak to him.

Joe bought mid-level technology four years ago when he lived up north. Now that they are full-time residents and more active with people coming to visit, he has noticed that his hearing aids aren't keeping up.

I offered him a chance to try premium-level hearing aids for a few days so he could hear the difference. Premium technology offers better clarity in noisy situations, and I recommend my socially active clients try them.

He came in beaming.

Joe shared that he and his wife went to eat at Bogey's and golf was on one of the channels. His wife was talking about one of the kids while he was watching the golf. He responded to her question, and in mid-sentence, yelled about the amazing golf shot that just happened.

He went on to explain that in that moment, he realized he was just hanging out. He wasn't intensely focused on his wife while out to eat. He was just being casual.

With his new hearing aids, he has enjoyed being relaxed and at ease while listening to his family and friends when they get together.

As I shared with him, the higher the technology the more heavy lifting they will provide so you can relax. Some of the new dual chips have technology that listens for clues to enhance hearing. If people walking is noticed then the speech module will brighten in anticipation of someone talking to you. When the clanking of dishes is heard, the chaos of noise is dampened. All this occurs in the background without your need to do anything.

If you would like to try hearing aids that can help you relax while out with friends and family, call me to demo premium hearing aids.
