Repairs, Service and Sales

How do I know if I need to have my hearing aids serviced? The honest answer is you may not know. The signs that your hearing aids are not working well include:

- Loud TV
- Asking everyone to repeat what they said
- You can hear start up chimes or phone calls but speech is muffled
- Sounds aren't as crisp as when you first got hearing aids

If you are experiencing any of these items, you need to get your hearing aids serviced and possibly repaired.

We service the following major brands:

We will assess your issues and let you know what needs to be done so you can hear your best. This will ensure you are able to stay connected and hear your family and friends.

If you can't hear as well as you want to with your current aids, we can identify issues and explain how it could be better. Or, if you or a friend has hearing aids that are not working properly, you can call for an appointment.
