Remote Programming

Blair Post, HAS, BC-HIS, ACA
Board Certified Hearing Instrument Sciences
American Conference of Audioprosthology

During the quarantine, we all adapted to a new way of living, our new normal. Now connecting with family and friends remotely on video chats or zoom meetings is part of our daily lives.

Like all of us, even the hearing aid industry has adapted to an increase in communicating over the internet. Almost all major brands have a line of hearing aids that can be programmed remotely. How this works is really quite interesting.

Imagine you have been fitted with ReSound Omnia hearing aids, personalized to your unique hearing. These state-of-the-art devices ensure optimal sound quality in various environments, whether you're traveling and encountering new sounds or spending time in different houses between Florida and up north. You'll notice a difference in sound quality changes with the style of each house.

The first signs that you want to review your program show up in conversations. Whether you misunderstand words, ask people to repeat themselves, or you feel like everyone is yelling at you, these are all indicators that your hearing aids may not be performing at their best.

To leverage remote programming, you will call us to set up a virtual appointment. At the time of the appointment, we will connect to your hearing aids through your smartphone. Then we will review the data that is in your hearing aids. This data tells us how you are using your hearing aids, which programs you use the most, your volume adjustments, and battery usage. We will ask you questions to identify situations in which you struggle to hear well, enabling us to help zero in on your most frustrating moments.

Real-time program adjustments are made so you can listen to your spouse in your home to ensure the new adjustments address your specific issues.

The wonders of remote programming are not bound by geographic limitations. We have successfully conducted remote programming sessions as far away as Venezuela, and we have even provided urgent assistance to a client at an airport.

If you travel and want to ensure you hear well in all your environments, call us to demo these new remote programmable hearing aids at no charge, 941-244-9300.

IT'S OFFICIAL! Governor Ron DeSantis signed CS/CS/HB 437 (2023) Property Owners' Right to Install, Display, and Store Items on May 11th. The law allows for everyone to exercise their right to display First Responder Memorial Flags throughout the State of Florida, regardless of any HOA Rules or restrictions, beginning on July 1, 2023. We must give credit to our State Representative, James Buchanan, who sponsored the House bill and Senator Joe Gruters, who sponsored the Senate bill. The law passed the House 110-0 and the Senate 39-0. We should all do our best to spread the word to make our Brothers and Sisters across the state aware of this change.

First responders who are interested in joining our club can contact Tom DeSane via email at onemoretom@yahoo.com or text at 631-335-1076. Please join our Facebook page. Hope to see you all at upcoming meetings to celebrate our victory.

Bourbon Club

The Islandwalk Bourbon Club meets on the 4th Tuesday of every month to enhance our knowledge of Bourbon. We taste bourbons and also buy high-end bourbons for sampling. We learn, have fun, great fellowship, and share our experiences and knowledge. Contact Sherman Wallace at 317-919-3823.

Hello and happy July to all Pittsburgh Steeler fans here at the Walk, at sea, and up North. The end of July means the beginning of another hazy, hot, and humid summer at St. Vincent College in Latrobe, home of the Steelers Training Camp since 1966. Free and open to the public, much like our Steeler

get-togethers at the Walk, it is something everyone should experience in their lifetime. Anyone interested in a trip up please contact me.

Please update your calendars to ensure you don't miss R Stillers on Friday, August 11th at 7PM when they travel to Tampa for a pre-season exhibition game against the Bucs. WFLA will broadcast the game.

Please email David at PSFCOIW@gmail.com to be added to our PSFCOIW distribution list.

Be sure to include: date/time/location, your name, your contact information, and brief details regarding the function, specifying whether or not ALL attendees will be IW residents.

From Marine to Medicare Agent

Before I began my career as a Medicare agent, I served my community and my country in the military. Though it's been eight years since I left, I will never forget those experiences.

After graduating from Venice High School, I joined the United States Marine Corps. I signed up along with hundreds of infantrymen and trained alongside them. A select few of us were hand-picked to serve at Marine Barracks in Washington D.C. I was honored to have the duty of marching behind the casket of fallen Marines. We laid to rest active duty, retired, and reserve Marines. The unit I was attached to had the 21-gun salute firing party, an honor guard with our nation's colors, body bearers to carry the casket, and ceremonial marchers for tribute.

Serving in The Corps and at Marine Barracks, Washington taught me a lot of things. Back then, I didn't realize those experiences were molding me in what I do today as a Medicare agent and resource for my clients.

Six years ago, I started helping Medicare enrollees. I still follow the same principles in my work today that I learned as a marine: honor, courage, and commitment; the three core values of the United States Marine Corps.

Honor: Always do what is right for the client. I care about my clients getting the coverage they need, not the policy that's easiest to write.

Courage: In our industry, some conversations are tough. My #1 priority is to take care of my clients.

Commitment: I was born and raised in Venice. This is my home and I'm here for the long-run. I specialize in Medicare options and would love to help with your Medicare enrollment.
